## EDUCATION

### UNIVERSITY OF MAINE

#### MA IN MATHEMATICS

Expected May 2025

Orono, ME

### UNIVERSITY OF MAINE

#### BS IN MATHEMATICS

#### MINOR IN COMPUTER SCIENCE

May 2023

Orono, ME

## SKILLS

### PROGRAMMING

Experienced:

• Python • Java • C • Bash • R

Familiar:

• C • MATLAB • C++ • SQL  
• HTML/CSS/JavaScript • TCI  
• Lisp • Haskell • BASIC

### APIS

• SentinelHub • Sentinelsat • AWS

### OPERATING SYSTEMS

• Windows • Linux • OSX

### OTHER

• Git • STAC • Django •  $\LaTeX$   
• Geospatial Data Analysis  
• JIRA • Docker & Kubernetes

## COURSEWORK

### COMPUTER SCIENCE

• Data Science  
• Object Oriented Programming  
• Functional Programming  
• Data Structures & Algorithms

### MATHEMATICS

• Mathematical Statistics  
• Bayesian Statistics  
• Mathematical Modeling  
• Stochastic Systems  
• Monte Carlo Methods  
• Differential Equations  
• Linear Algebra  
• Asymptotic Analysis

## EXPERIENCE

### ZAL.AI | STUDENT CONSULTANT

Sept. 2023 – Present | Orono, ME

- Assisted in creating an AI and a LLM to provide career advice to users.
- Collaborated with cross-functional teams to develop and implement AI-powered solutions for real-world business challenges.

### UNIVERSITY OF MAINE, MATH DEPT. | TEACHING ASSISTANT

Sept. 2023 – Present | Orono, ME

- Lead biweekly recitations, a structured time for students to work on problems as a group.
- Held weekly office hours in the math department's help center.
- Gave feedback and graded student's homework and group work.

### FERDA FARMS/INNOVATE FOR MAINE | MATH MODELING INTERN

June 2023 – Sept. 2023 | Orono, ME

- Developed and implemented a mathematical model to predict the movement, location and density of oysters over time for use for oyster farms.
- Worked with several satellite APIs including but not limited to SetninelHub and Sentinelsat to receive and analyze ocean data.
- Assisted in Development of website using Django framework with Python.

### BLACK BEAR CONSULTING CORPS | STUDENT CONSULTANT

January 2023 – June 2023 | Orono, ME

- Worked closely with a Maine based oyster farm to create software to aid in the inspection and reporting for oyster farms in Maine.
- Created a website and database for said company based on required specifications.
- Created marketing material and worked on the website for PowerWise, a company in the solar industry.

### COMPUMAINE LAB | RESEARCH ASSISTANT

July 2022 – June 2023 | Orono, ME

- Worked on updating and improving upon cutting edge public image analysis code for use in cancer detection.
- Attended presentations for and participated in research for other lab members.

### FRANCO AMERICAN CENTRE | WEB DEVELOPER, PROJECT MANAGER

Dec. 2021 – Sept. 2022 | Orono, ME

- Worked as the go to IT and tech person in the centre.
- Managed a wide variety of projects at the Centre, including but not limited to: Audio Archival, Cross-College Communication, Computer Management, and Social Media Management.
- Assisted in updating code for their old archive website.

### FOSTER CENTER FOR INNOVATION | SOFTWARE ENGINEER INTERN

June 2022 – Aug. 2022 | Orono, ME

- Performed extensive research in various fields in order to develop algorithms and products for a multitude of companies with whom we had partnered with.
- Created and set up quickstart environments for our clients using ocker and kubernetes.
